

Self-Service Video Streaming

Netbriefings offers a wide range of tools and services to help you communicate more effectively with your audience. Our Self Service Video Streaming solution allows you to stream crisp, clean HD video to 100s or 1000s of participants. Use our destination server to broadcast your video to any device worldwide.

Embed your video on your own website, enable registration and tracking, email notifications, unlimited video storage, event recording and customized branding.
